- NDA agreements available
- Secure file transfer methods (encrypted/password-protected)
- GDPR-aware data handling

Client Success Story: High-Volume PDF Remediation Across Health, Education, and University Sectors

Clients:

- Leading Healthcare Provider (USA)
- Major Educational Publisher (USA)
- Renowned University Accessibility Office (USA)

Projects:

- Over 80,000 pages of patient forms, policy documents, brochures, educational materials, course catalogs, enrollment forms, research publications, and campus accessibility guides

Challenges: Each client required full accessibility compliance under federal laws like Section 508 and WCAG 2.1 guidelines.

Their goals included:

- Managing massive volumes of PDFs under tight deadlines without compromising quality
- Ensuring documents were accessible to diverse users including patients, students, faculty, and staff with disabilities
- Providing thorough testing and quality assurance to pass strict regulatory audits
- Supporting ongoing accessibility updates and maintenance

Solutions: Techmore IT Solutions Pvt Ltd designed and implemented customized remediation workflows combining advanced manual remediation and smart automation techniques.

- For the Healthcare provider: Specialized in complex medical forms ensuring full functionality with screen readers and assistive technology compatibility
- For the Educational Publisher: Remediated thousands of pages of instructional materials, textbooks, and assessments to ensure accessibility compliance for learners with disabilities
- For the University: Transformed large catalogs, administrative forms, and campus accessibility guides into fully compliant, accessible PDFs

Robust multi-platform testing and transparent remediation reporting ensured top-quality deliverables.

Results:

- Successfully remediated over 80,000 pages adhering to WCAG 2.1, PDF/UA, and Section 508 standards
- Accelerated project delivery by 30% through efficient workflows and dedicated project management
- Enhanced accessibility for tens of thousands of end users, significantly improving patient care, educational outcomes, and campus inclusivity
- Helped clients pass all external accessibility audits with zero compliance issues
- Established trusted, ongoing partnerships for regular remediation and accessibility consulting

Testimonial: " Techmore IT Solutions demonstrated exceptional expertise and dedication on this large-scale project. Their thoroughness and ability to meet aggressive deadlines helped us fulfill compliance requirements and expand accessibility to our community.

We value their professionalism and partnership."
